**GPS QUICK START GUIDE**

**Don't forget to visit the Coxmate [Youtube channel](#) for more guides, hints and product information (just Google "Coxmate Youtube")**

**Charge Battery – 2+ Hours**

✓ Use cable supplied
✓ Ensure computer USB port is powered up (computers sleep too)
✓ Use Smartphone wall adapter

**Power it on**

✓ Press button on right side firmly for at least 2 seconds (avoids accidental activation in bag)
✓ Press middle button to change display
✓ Use the touch screen to configure settings as required
✓ Have a look through the menu
✓ Set the time zone – this helps for time/date stamping files for analysis

**Give it a go**

✓ Try out the different mount options
✓ Play around with the settings whilst out on the water
✓ If you are wearing a heart rate belt it should be detected automatically

**Upload Your Data**

✓ Included is a 12 month subscription to the Coxmate PC Analysis Software
✓ Have a play with the software, ensure you right click to see all the functions available to you
✓ Train/Analyse/Improve

**Look After Your Unit**

✓ While it is waterproof no electronic device likes salt water
✓ Give it a wipe after every session to clear salt water and moisture
✓ Use the case provided to protect your unit when in your bag
✓ Please ensure the hatch cover (image below) for the micro USB port is closed at all times when not charging or connected to a PC

**Visit the Coxmate Website**

✓ A comprehensive user manual
✓ Customer support
✓ Accessories for your unit
✓ An opportunity to provide feedback
